

Green Map Icons and the United Nations Sustainable Development Goals

The United Nations' work on sustainable development has been an inspiration to Green Map System since the nonprofit began. Now, the UN has a new way of clearly setting out goals, with 17 Sustainable Development Goals. We've matched them to our award-winning icons, as seen at [UN 2030 SDG Goals & Our Icons](#). Use them together, creatively, for the betterment of your own community and the beautiful world we share.
