Curly’s Vegetarian Lunch

By Gautam Naidu, Kolkata India

328 East 14th Street #B

Great selection of meals for vegetarians and vegans, including fake meats with cute names and comfort foods as well. Some organic ingredients, recycled paper menus.

Curly’s welcomes all and has a tradition of “putting on our biggest pots and feeding the neighborhood.”

The New School
By Jenna Giambalvo, Hoboken New Jersey USA
At the corner of 14th Street 5th Avenue

Based in the Union Square area, the New School was founded in 1919. With nearly 10,000 graduate and undergraduate students in its eight schools, the New School has a proactive stance regarding challenging social issues and environmental responsibility. With many international students and campuses abroad, their campus has several galleries and performance spaces which feature lectures, concerts, exhibitions, and other free programming that is open to the local community.

Their two environmental studies emphasize urban ecosystems, sustainable design, social innovation and public policy. Parsons The New School of Design has several notable programs and was selected to compete in the 2011 Solar Decathlon, a prestigious international building competition sponsored by the US Department of Energy. Our Lady of Guadalupe

By Jenna Giambalvo, New Jersey USA

328 West 14th Street

The Victorian Gothic Roman Catholic Church of St. Bernard was designed by architect Patrick C. Keely and built from 1873-75. It was dedicated by the first American cardinal. In 2003, the Archdiocese of New York merged the nearby parish of Our Lady of Guadalupe with St. Bernard's, renaming the church Our Lady of Guadalupe at St. Bernard's.
